

1.1 User initiation

Product Manager Name: Keyu Liu

ID:1403714

Intro:It is difficult for blind users to find the corresponding physical switch when waking up the robot, so it is very necessary to wake up the robot by voice					
Epic	As a [role]	I want [feature]	so that [benefit]	Link	Priority
The user wakes up the robot by voice	visually impaired user	I'd like to be able to wake up the robot with a simple voice command such as "Hi, Moss"	I can start interacting without having to look for any physical buttons.	1.1A	High
	visually impaired user	the robot to confirm its activation status through voice feedback after I wake it up by voice (e.g. "I'm here, can I help you?").), convinced me that it was ready to receive instructions.	Until I woke up the robot	1.1B	High
	visually impaired user	the robot to recognize my voice and remember my speech features	it can still respond accurately to my commands in a noisy environment or with multiple people.	1.1C	Medium
